

Navistar Reports Second Quarter 2017 Results

- Reports net loss of \$80 million, or \$0.86 per diluted share, on revenues of \$2.1 billion
- Generates \$65 million of adjusted EBITDA in the quarter
- Changes sales strategy for used truck vehicles; takes \$60 million charge for used truck inventories; reduces used truck inventories for the fourth consecutive quarter
- Expects stronger second half, driven by backlog and improving industry conditions
- Maintains 2017 full-year guidance

LISLE, Ill., June 7, 2017 /PRNewswire/ -- Navistar International Corporation (NYSE: NAV) today announced a second quarter 2017 net loss of \$80 million, or \$0.86 per diluted share, compared to a second quarter 2016 net income of \$4 million, or \$0.05 per diluted share.

Revenues in the quarter were \$2.1 billion, down five percent compared to \$2.2 billion in the second quarter last year. The decrease primarily reflects lower volumes in the company's Core (Class 6-8 trucks and buses in the United States and Canada) market, where chargeouts were down five percent, but higher than industry Core market volumes, which were down 13-percent year-over-year.

Second quarter 2017 EBITDA was \$47 million, compared to second quarter 2016 EBITDA of \$135 million. This year's second quarter results included \$18 million in adjustments primarily resulting from pre-existing warranties, asset impairment charges, restructuring of manufacturing operations, and debt financing charges. Second quarter adjusted EBITDA was \$65 million, compared to adjusted EBITDA of \$187 million in the comparable period last year. Higher used truck losses primarily resulting from a \$60 million increase to the used truck reserve for the company's legacy MaxxForce 13 used truck inventory was the largest contributor to the year-over-year decline. The company is changing its sales strategy for its MaxxForce 13-liter used trucks to take advantage of additional opportunities to sell more units into export markets, a move it expects will accelerate efforts to reduce its inventories of these trucks.

Navistar ended second quarter 2017 with \$949 million in consolidated cash, cash equivalents and marketable securities. Manufacturing cash, cash equivalents and marketable securities were \$918 million at the end of the quarter.

"We are on track to improve on last year's results, but still have quite a bit of work to do in the second half," said Troy A. Clarke, Navistar chairman, president and chief executive officer. "However, the work we've done in the first six months growing share, building our backlog, and managing costs, combined with improving industry conditions, positions us to deliver a stronger second half."

Second quarter highlights included:

- **Improving Core market share**, with additions to the company's production schedule and extensions of the company's backlog into the fourth quarter.
- **Strengthening competitive presence in the Class 8 market**, including ramped-up deliveries of the new International LT Series with the Cummins ISX 15 liter engine; introduction of the new RH™ Series of Class 8 regional haul tractors; and unveiling of the new International A26 12.4-liter engine, which launches in the LT and RH Series in the coming weeks.
- **Significant defense wins**, including two foreign military contracts to reset, upgrade and support 1,085 long wheel base MaxxPro® Mine Resistant Ambush Protected (MRAP) vehicles; and to produce and support 40 MaxxPro® Dash DXM™ MRAP vehicles for foreign military sales.
- **Progress on new sources of revenue**, including full-run-rate production of General Motors' cutaway G van at Navistar's Springfield, Ohio plant; expansion of Navistar's connected vehicle services under the OnCommand Connection brand, which now includes more than 300,000 subscribers; announcing its Electronic Driver Log app, which will assist smaller fleets and owner-operators in complying with new federal regulations; and the unveiling of OnCommand Connection Marketplace, a new, open-architecture, cloud-based technology platform for a broad range of driver support tools and applications.
- **Closing its wide-ranging strategic alliance with Volkswagen Truck & Bus**, under which the two companies are already collaborating on a number of potential technology projects, and in a procurement joint venture, which is identifying cost-saving opportunities and is expected to be accretive year one.
- **Naming Persio V. Lisboa as executive vice president and chief operating officer.**
"Persio played a key role in creating our alliance with Volkswagen Truck & Bus, and led many of the initiatives to improve our operations during the turnaround," Clarke said. "His focus in this new role will be to build on the progress we've made over the last four years."

The company reiterated its 2017 guidance:

- Retail deliveries of Class 6-8 trucks and buses in the United States and Canada are forecast to be in the range of 305,000 units to 335,000 units for fiscal year 2017.
- Full-year 2017 revenues are expected to be similar to 2016.
- Full-year 2017 adjusted EBITDA is expected to be higher than 2016.
- Fiscal year end 2017 manufacturing cash is expected to be about \$1 billion.

Amounts attributable to Navistar International Corporation.

Truck Segment - Truck segment net sales declined six percent to \$1.4 billion in second quarter 2017 compared to second quarter 2016, due to lower Core volumes, the impact of a shift in product mix in the company's Core markets, and the cessation of sales of CAT-branded units sold to Caterpillar. This was partially offset by an increase in Mexico truck volumes. Truck chargeouts in the company's Core market were down five percent year-over-year.

The Truck segment loss increased to \$56 million in second quarter 2017 versus a second quarter 2016 loss of \$23 million, driven by the higher used truck losses, market pressures, the impact of lower Core market volumes, and a decrease in other income, which were partially offset by improved material costs and lower adjustments to pre-existing warranties. Second quarter 2016 results included a \$19 million benefit from a recognition of income for an intellectual property license.

Parts Segment - Parts segment second quarter 2017 net sales were \$610 million, down \$37 million, or six percent, compared to second quarter 2016, driven by lower sales from Blue Diamond Parts (BDP), the company's parts joint venture with Ford, as well as by lower U.S. and export volumes, partially offset by higher U.S. and Canada parts sales related to Fleetrite™ brand and remanufactured parts sales.

The Parts segment recorded a quarterly profit of \$153 million in second quarter 2017, down 13 percent versus the same period one year ago, primarily due to margin declines in BDP and the company's North American markets.

Global Operations Segment - Global Operations segment second quarter 2017 net sales decreased nine percent to \$70 million compared to second quarter 2016. This was primarily driven by lower volumes in the company's South America engine operation due to the continued economic weakness in the Brazil economy.

The Global Operations segment recorded a \$7 million loss in second quarter 2017 compared to a \$1 million loss in the same period one year ago. The year-over-year change was due to lower volumes, partially offset by lower manufacturing and SG&A costs as a result of prior year restructuring and cost reduction efforts.

Financial Services Segment - Financial Services segment second quarter 2017 net revenues decreased three percent to \$56 million versus the same period one year ago, primarily driven by a decline in interest revenues due to lower overall finance receivables and unfavorable movements in foreign currency exchange rates impacting the company's Mexican portfolio, partially offset by higher revenues from operating leases.

Financial Services segment profit decreased by \$10 million in second quarter 2017, primarily due to lower interest margins resulting from a decline in average finance receivables and an increase in the company's borrowing rate, as well as a decline in other revenue due to lower interest income from certain intercompany loans.

About Navistar

Navistar International Corporation (NYSE: NAV) is a holding company whose subsidiaries and affiliates produce International brand commercial and military trucks, proprietary diesel engines, and IC Bus brand school and commercial buses. An affiliate also provides truck and diesel engine service parts. Another affiliate offers financing services. Additional information is available at www.Navistar.com.

Forward-Looking Statement

Information provided and statements contained in this report that are not purely historical are forward-looking statements within the meaning of the federal securities laws. Such forward-looking statements only speak as of the date of this report and the company assumes no obligation to update the information included in this report. Such forward-looking statements include information concerning our possible or assumed future results of operations, including descriptions of our business strategy. These statements often include words such as believe, expect, anticipate, intend, plan, estimate, or similar expressions. These statements are not guarantees of performance or results and they involve risks, uncertainties, and assumptions. For a further description of these factors, see the risk factors set forth in our filings with the Securities and Exchange Commission, including our annual report on Form 10-K for the fiscal year ended October 31, 2016. Although we believe that these forward-looking statements are based on reasonable assumptions, there are many factors that could affect our actual financial results or results of operations and could cause actual results to differ materially from those in the forward-looking statements. All future written and oral forward-looking statements by us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to above. Except for our ongoing obligations to disclose material information as required by the federal securities laws, we do not have any obligations or intention to release publicly any revisions to any forward-looking statements to reflect events or circumstances in the future or to reflect the occurrence of unanticipated events.

SEC Regulation G Non-GAAP Reconciliation

The financial measures presented below are unaudited and not in accordance with, or an alternative for,

financial measures presented in accordance with U.S. generally accepted accounting principles ("GAAP"). The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP and are reconciled to the most appropriate GAAP number below.

Earnings (loss) Before Interest, Income Taxes, Depreciation, and Amortization ("EBITDA"):

We define EBITDA as our consolidated net income (loss) from continuing operations attributable to Navistar International Corporation, net of tax, plus manufacturing interest expense, income taxes, and depreciation and amortization. We believe EBITDA provides meaningful information to the performance of our business and therefore we use it to supplement our GAAP reporting. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of operating results.

Adjusted EBITDA:

We believe that adjusted EBITDA, which excludes certain identified items that we do not consider to be part of our ongoing business, improves the comparability of year to year results, and is representative of our underlying performance. Management uses this information to assess and measure the performance of our operating segments. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of operating results, to illustrate the results of operations giving effect to the non-GAAP adjustments shown in the below reconciliations, and to provide an additional measure of performance.

Manufacturing Cash, Cash Equivalents, and Marketable Securities:

Manufacturing cash, cash equivalents, and marketable securities represents the Company's consolidated cash, cash equivalents, and marketable securities excluding cash, cash equivalents, and marketable securities of our financial services operations. We include marketable securities with our cash and cash equivalents when assessing our liquidity position as our investments are highly liquid in nature. We have chosen to provide this supplemental information to investors, analysts and other interested parties to enable them to perform additional analyses of our ability to meet our operating requirements, capital expenditures, equity investments, and financial obligations.

Structural costs consists of Selling, general and administrative expenses and Engineering and product development costs.

EBITDA reconciliation:

(in millions)	Three Months Ended April 30,		Six Months Ended April 30,	
	2017	2016	2017	2016
Income (loss) attributable to NIC, net of tax	\$ (80)	\$ 4	\$ (142)	\$ (29)
Plus:				
Depreciation and amortization expense	53	53	112	111
Manufacturing interest expense ^(A)	68	62	130	124
Less:				
Income tax expense	(6)	(16)	(10)	(11)
EBITDA	<u>\$ 47</u>	<u>\$ 135</u>	<u>\$ 110</u>	<u>\$ 217</u>

(A) Manufacturing interest expense is the net interest expense primarily generated for borrowings that support the manufacturing and corporate operations, adjusted to eliminate intercompany interest expense with our Financial Services segment. The following table reconciles Manufacturing interest expense to the consolidated interest expense:

(in millions)	Three Months Ended April 30,		Six Months Ended April 30,	
	2017	2016	2017	2016
Interest expense	\$ 89	\$ 81	\$ 171	\$ 162
Less: Financial services interest expense	21	19	41	38
Manufacturing interest expense	<u>\$ 68</u>	<u>\$ 62</u>	<u>\$ 130</u>	<u>\$ 124</u>

Adjusted EBITDA Reconciliation:

(in millions)	Three Months Ended April 30,		Six Months Ended April 30,	
	2017	2016	2017	2016
EBITDA (reconciled above)	\$ 47	\$ 135	\$ 110	\$ 217
<i>Less significant items of:</i>				
Adjustments to pre-existing warranties ^(A)	7	46	(10)	51
North America asset impairment charges ^(B)	5	3	7	5
Restructuring of North American manufacturing operations ^(C)	2	—	9	—
Cost reduction and other strategic initiatives	—	3	—	6
Debt refinancing charges ^(D)	4	—	4	—
One-time fee received ^(E)	—	—	—	(15)
Total adjustments	18	52	10	47
Adjusted EBITDA	\$ 65	\$ 187	\$ 120	\$ 264

- (A) Adjustments to pre-existing warranties reflect changes in our estimate of warranty costs for products sold in prior periods. Such adjustments typically occur when claims experience deviates from historic and expected trends. Our warranty liability is generally affected by component failure rates, repair costs, and the timing of failures. Future events and circumstances related to these factors could materially change our estimates and require adjustments to our liability. In addition, new product launches require a greater use of judgment in developing estimates until historical experience becomes available.
- (B) In the first and second quarters of 2017, the Truck segment recorded \$2 million and \$5 million, respectively, of asset impairment charges relating to certain assets under operating leases. In the first and second quarters of 2016, the Truck segment recorded \$2 million and \$3 million, respectively, of asset impairment charges relating to certain long lived assets.
- (C) In the first and second quarters of 2017, we recorded \$7 million of restructuring charges related to the 2011 closure of our Chatham, Ontario plant and \$2 million of Corporate restructuring charges, respectively.
- (D) In the second quarter of 2017, we recorded a charge of \$4 million related to third party fees and debt issuance costs associated with the repricing of our Term Loan.
- (E) In the first quarter of 2016, we received a \$15 million one-time fee from a third party which was recognized in *other expense, net*.
