

Navistar Sustainment Network Keeps MaxxPro™ MRAP Vehicles Rolling

Close Collaboration with the Military Results in Rapid Vehicle Enhancements

WARRENVILLE, Ill. (October 30, 2008) Urgent needs in Iraq and Afghanistan call for extraordinary measures and Navistar Defense, LLC answers the call by utilizing its Parts Group and engineering expertise for strong sustainment of its International® MaxxPro™ Mine Resistant Ambush Protected (MRAP) vehicles. Today, the U.S. Marine Corps awarded the company two contracts totaling more than \$64.7 million for parts and vehicle enhancements.

“Our close collaboration with the U.S. military allows us to rapidly provide the government with vehicle enhancements so our troops can continue to complete their missions safely,” said Archie Massicotte, president, Navistar Defense. “Navistar’s Parts Group and engineering teams add tremendous value to the strong sustainment of MaxxPro vehicles.”

The contracts, one for \$56.4 million and another for \$8.3 million, are fixed-price modifications to the original contract awarded to Navistar in May 2007 for parts support and vehicle enhancements to be completed by the end of November, 2008. Vehicle upgrades include engineering changes to mechanical systems and performance upgrades.

To date, Navistar has shipped more than 800,000 parts pieces to the military for MRAP support and has more than 250 field service representatives and training personnel in theater. Currently, there are more than 4,800 MaxxPro units in theater, which the company began producing in August 2007 – rapidly ramping up its production to more than 500 units per month beginning in February 2008. At this same time, the entire MRAP program had doubled in size in little over four months in order to supply troops with the much-needed level of protection afforded by MRAP vehicles.

Navistar International Corporation (NYSE: NAV) is a holding company whose subsidiaries and affiliates produce International® brand commercial and military trucks, MaxxForce™ brand diesel engines, IC brand school and commercial buses, and Workhorse® brand chassis for motor homes and step vans. It also is a private-label designer and manufacturer of diesel engines for the pickup truck, van and SUV markets. The company also provides truck and diesel engine parts and service. Another affiliate offers financing services. Additional information is available at www.Navistar.com/newsroom.
