

Navistar Defense Receives \$66 Million in Vehicle Delivery Orders

WARRENVILLE, Ill. (September 7, 2010) - Navistar Defense, LLC today announced that it has received \$66 million in delivery orders from the U.S. Army TACOM Life Cycle Management Command. All 492 vehicles will go to support security and rebuilding efforts in Iraq and Afghanistan.

"In less than seven years, we have received nearly 30,000 vehicle orders with a majority of those being military commercial off the shelf vehicles," said Archie Massicotte, president, Navistar Defense. "This diversified portfolio provides a strong base for our business and it will continue to do so as we sustain these vehicles throughout their 15-20 year lifecycles."

Under the delivery orders, Navistar will provide several variants that share vehicle commonality. Vehicles based on the International® 7000-MV, or WorkStar®, platform, include general troop transport vehicles, fuel tankers, water trucks and wreckers. The company will also provide buses. The units are additional orders placed under four existing Navistar contracts. Deliveries will begin in December 2010.

Bus production will occur at the company's Tulsa, Okla., assembly plant. The remaining vehicles will be produced at Navistar's Garland, Texas, and West Point, Miss., facilities.

Navistar International Corporation (NYSE: NAV) is a holding company whose subsidiaries and affiliates produce International® brand commercial and military trucks, MaxxForce® brand diesel engines, IC Bus™ brand school and commercial buses, Monaco® RV brands of recreational vehicles, and Workhorse® brand chassis for motor homes and step vans. It also is a private-label designer and manufacturer of diesel engines for the pickup truck, van and SUV markets. The company also provides truck and diesel engine service parts. Another affiliate offers financing services. Additional information is available at www.Navistar.com/newsroom.
