

IC BUS UNVEILS THE NEWLY UPDATED RE SERIES

Combining Quality, Safety and Connectivity and Backed by North America's Most Powerful Dealer Network, the IC Bus® RE Series is Built to Be on Time, Every Time

Newly updated RE Series by IC Bus

LISLE, Ill. - February 15, 2018 – IC Bus is in full production with its newly updated RE Series Type D school bus featuring industry-leading connectivity solutions, backed by North America's most powerful dealer network, and built to be on time, every time.

"At IC Bus, we are making significant investments in our product portfolio with the goal of offering our customers different and better options that help them meet their school transportation business needs," said Trish Reed, vice president and general manager, IC Bus. "We are excited about the state-of-the-art safety and OnCommand® Connection remote diagnostics that we've engineered on the newly updated RE Series. We are confident that this bus will be loved by both drivers and fleet owners and operators for its remarkable ease of driving, maintenance and service."

The RE Series now features the Cummins® L9 engine, which is rated up to 300 horsepower and 860 lb-ft of torque with the best power-to-weight ratio in its class. In addition to the new engine, the RE series now offers elevated features such as enhanced interiors and maximum passenger capacity, optimum safety, and the industry's only all-makes OnCommand Connection remote diagnostics.

The RE Series is backed by the largest dealer network in the industry, with more than 700 dealer locations across North America, so no matter where you're located, there's an IC Bus dealer close by. For more information on the newly updated IC Bus® RE Series school bus, visit an IC Bus dealer or www.icbus.com.
